

**Thank you for purchasing [Puzzle Bobble®](#)
for Palm Enabled™ handheld devices!**

If your handheld has Palm OS® 5.0 or higher and a High Density Color display then you should install the *Puzzle Bobble v2* which has 320x320 color and audio.

Otherwise select v1.5 which runs on Palm OS 3.5 and higher with color displays.

Installation:

- (1) Run the PC Install program on this CD: (**Install PuzzleBobble.exe**)
- (2) Follow the directions in the Install program.
Select either Puzzle Bobble® v1.5 or v2, depending on your handheld.
- (3) After completing this installation, the next time you perform a HotSync® operation, **Puzzle Bobble®** will be loaded onto your handheld. Note: If there are any problems, you can refer to the section at the end of this file.

User Guide:

Please refer to the PDF User Guide included for valuable information on the operation of the game! The install program also copies this file onto your hard-drive, and a shortcut is placed in the Start Menu\Outlook Entertainment group for your convenience.

Demo Versions included on CD:

We have also included several demos of Outlook Entertainment applications for Palm OS® handheld devices on this CD. Simply run the **Install OEI Demos.exe** program, and the demos available on this CD will be listed for you to optionally install onto your handheld.

Uninstall Procedure:

This program was installed so that the Windows Un-install procedure will remove the files from your computer. If you need to remove these files from your PC, please follow the following directions:

- 1 – Choose Start menu, then Settings, Control Panel and Add/Remove Programs
- 2 – A list with all installed programs opens. Select this product
- 3 – Click on Add/Remove button. Follow the procedure

Sincerely,

Outlook Entertainment, Inc.

Additional technical information:

Default location of files placed on your PC:

\Program Files\Outlook Entertainment\Product Name\

Manual Installation: (Required for Mac OS)

In case there are any problems with the install program completing copying and installation of the required files onto your PC, we have also included all of the necessary files on the CD. Those familiar with installing .PRC files could install these files manually direct from the CD onto their handheld if required.

Note: If you do install the product manually without using the Install program, please don't forget to copy the User Guide PDF file onto your hard drive as well for future reference.
